1   PRESENTING SOME BULLETS

1.1 *title*

- Really interesting point number 1

- Really interesting point number 2

Picture here

1.2   *Source Code Listing*

```java
Task<Integer> task = new Task<Integer>() {
  @Override protected Integer call() throws Exception {
    int iterations;
    for (iterations = 0; iterations < 100000; iterations++) {
    if (isCancelled()) {
      break;
    }
    System.out.println("Iteration " + iterations);
    }
    return iterations;
  }
};
```
